

# Tech Lead Javascript

at Teads  
Montpellier

We are looking for a **Tech Lead Javascript** to complete the advertising formats team.

As Tech Lead Javascript Engineer, your role is to lead the design, development and implementation of software across various applications focused on users experience following stability and scalability requirements.

## What will you do ?

Bring new technologies, paradigms and concepts to architect our projects based on Javascript, Node.js and TypeScript

- Ensure that our Ad Formats are resilient and suitable for all devices (mobile, desktop)
- Participate in cross-functional projects, internal to Teads
- Be in constant technology watch for upcoming features in new versions of OSes, Browsers or Devices and share your knowledge with the rest of the team
- Work with Agile Management methods (Kanban, Lean Software Development, daily & retrospective meetings)
- Develop new internal tooling (with Angular, React, TypeScript)

## What are we looking for?

- You have a perfect mastery of JavaScript (ES6, NodeJS, TypeScript), and know about common JS libraries
- Package managers, continuous integration, version control software, automated testing and automation tools have no secrets for you (Git, Node, Yarn, Webpack, Webdriver.io, Jenkins, Docker)
- You thrive on web video player problematics, monitor your work while dealing with performance, fluidity, scalability and comply with business constraints
- You know how to monitor a distributed application at scale
- You understand that software development is a mean, not an end

## Our Stack / Some Figures and Facts

- Javascript (ES6, TypeScript, React, Angular, NodeJS)
- Github, Jenkins, Docker
- 1'500 AWS instances, Google Big Query, Kafka, Cassandra, Redshift, Redis, Chef
- Scala, Golang, Java, Node
- 1,2 billion monthly individual viewers worldwide

As an innovative startup, we like to use the latest technologies to improve our platform limits. We are constantly monitoring what is new on the market and are not afraid to try new things with technologies that we are not familiar with. Also know that we insist and encourage on sharing skills (conferences, workshops, internal technical talks).

## **About Teads**

Teads, founded in 2011, is the inventor of outstream video advertising and the leading native video advertising marketplace. Publishers work with Teads to create new video inventory, monetizing it through programmatic buying, their own sales force, or third parties including Teads Demand. Teads pioneers advertising experiences that respect the user, creating unprecedented levels of premium inventory which previously didn't exist.

Teads has a team of over 670 employees, 120 of whom are on the innovation team, across 35 offices in 24 countries. We're committed to creating a dynamic work environment that values diversity and inclusion, and represents employees across a variety of skill sets. We embrace contributions from all ages, sexes, races, ethnicities, religions, sexual orientations and gender identities.

In May 2017, Teads became part of the Altice Group, a convergent global leader in telecom, content, media, entertainment and advertising.
